Of all these the of the Temple, and, though unnoticed before, it appears to have at once become an object of worship. Quite recently the stone came under the observation of the Lieutenant-Governor of Bengal and recognising its great artistic and antiquarian value, innocent of the knowledge that it had become a poojele stone, and noticing that it was lying apparently unregarded just where it fell; he ordered its removal to the India Museum. Herenpon ensued great dismay amongst the community, which, as it subsequently transpired, had been in the habit for years inundated-with petitions, and Sir Charles Elliott avantually referred the whole matter to a Joint Committee of the Asiatic Society and the Trustees of the India Museum. The Committee sat on the stone, and took voluminous evidence. and in the end recommended that the order for its removal to the Museum be cancelled, finding that it was a genuine poojah stone and had been so for a generation. The India Museum thus loses a valuable antiquarian relic, but the religious susceptibilities of the people of Orisas are left undisturbed, which is a very much better alternative.—Times of India.
